Career Objective :

Enthusiastic MERN Stack Developer with experience creating 12+ full-stack applications using the latest technologies, including React, Node.js, Express, and MongoDB. Adept in using Firebase and JWT for secure authentication. Excited to join a team where I can learn, grow, and build scalable web solutions.

PROJECTS

Food Expiry Tracker | [Live](#) | [Client](#) | [Server](#)

A web app to track food expiry dates, reduce waste, and encourage mindful consumption.
Tech Stack: MERN stack | Firebase Auth | JWT | Tailwind CSS

- Secured user data with Firebase and JWT-based authentication.
- Built RESTful APIs with Node.js & Express to manage food items.
- Designed a responsive UI in React for tracking and viewing expiry dates.
- Integrated visual alerts for items nearing expiration.

HobbyHub | [Live](#) | [Client](#) | [Server](#)

An interactive platform for discovering, organizing, and sharing hobbies with a creative community.

Tech Stack: MERN Stack | Firebase Auth | JWT | Tailwind CSS

- Implemented secure login and role-based access with Firebase & JWT
- Built Express.js APIs to manage hobbies and user data.
- Designed a responsive UI with React & Tailwind CSS.
- Added hobby tagging, personalized dashboards & real-time updates.
